KANSAS BORDER NOTES.

From the Caldwell Commercial.

Several of our stockmen talk of attending the annual meeting of Texas Stockmen's Association, which meets in Austin on the 9th of February.

By some means an unfortunate combination in Wichita has been induced to issue a patent medicine advertising sheet under the name of the "Oklahoma War Chief," presumably for the purpose of aiding along Payne's scheme of fleecing the lands out of their two dollars for claims in Oklahoma. Several copies of the patent med. circular were floating around Caldwell on Tuesday and afforded considerable amusement, coming as it did upon the heels of the fence excitement. What with the Standard Oil company, the fence racket and the "War Chief," there has been no lack of fun in Caldwell this season.

Medicine Lodge Cresset.

The reported sales of maces and cattle of Maj. Drummond Grever & Houghton prove to have been a mistake. Grever & Houghton, we understand, have a standing offer for their ranch and herd, but have not accepted it.

Through cattle on the Cimarron range are reported as looking thin, and a few dying, though the prospect for the greater part going through the winter is good.

From the Arkansas City Traveler.

Senator Samuel S. Benedict, now U. S. Indian Inspector, returned from an extended trip through the Indian Territory last week.

The secretary of the interior has called upon the secretary of war for troops to tear down the wire fences in the Territory, and the fence will have to go.

Maj. Lipe positively refused to grant the Oil Co. any license on the country below us known by the Cherokee Strip Stock Protective Association as "quarantine grounds," and says: (speaking of those who have paid the tax) "Whether any one of them comes forward next spring to renew their license he proposes to accept the money and issue the permit."

An item is going the rounds of the press that a story of a terrible tragedy comes from the Indian Territory. A sheen killer named Alex Hampton got jealous of his wife and concluded to go to Texas. Accordingly, he hired a man named Smith to transport him and his effects. They traveled about thirty miles and stopped for dinner. But instead of eating it, Hampton flew Smith's brains out, then mounted one of the dead man's horses, returned to his wife, whom he shot and killed, and then killed himself.
